

A large, multi-story white building with a red-tiled roof is situated on a grassy hillside. The building has several windows and a small tower-like structure on the roof. The surrounding area is lush with green grass and trees, including a large evergreen tree on the right. The sky is blue with some white clouds. Sahaja YogaCoconut Project

For the purification of Mother Earth
For the whole world

The Coconut Project

Shri Mataji has told Sahaja Yogis in Italy (according to Wolfgang Hackl) that only 1 coconut has the special power to vibrationally cleanse a large area.

On the first of January 2020, a small group of Viennese Sahaja Yogis began to offer coconuts to Mother Earth in vibrationally „heavy“ places. The Indian yoginis actively supported us in this.

Because the vibrations have changed so positively and this collective "work" is so much fun, a WA group has formed that works systematically and collectively with much love and enthusiasm.

There is a coordinator, Walter, and therefore records can be made about the offering sites so that „white spots“ can also be taken care of. Possible locations for coconuts where something occurred in the past are specially googled.

Since January 2020 2300 coconuts have been offered to Mother Earth in Austria alone.

In the meantime, the coconut spark has jumped from Vienna across Austria to Germany, Switzerland, Croatia, Slovenia, Tenerife.....

Our Tyrolean Ghostbuster

- ✓ We all want to be a good tool and help out to make Shri Mataji's vision come true.
- ✓ Everything we do collectively accelerates our growth and it expresses itself in so much joy.
- ✓ This is such a simple, powerful way to immediately and tangibly make the world a little better.
- ✓ There are many beautiful experiences that confirm that the energy really changes immediately in a positive way.
- ✓ Because in doing so we also help ourselves and love all life in this beautiful world
- ✓ Mother Earth so often shows us through the elements what important work we humbly and gratefully do.
- ✓ Negativity from the past and from now is absorbed and transformed.
- ✓ Life for the people becomes easier as the influence of the Bhoots is decimated.
- ✓ Collective karma can change.
- ✓ Possibility of fewer natural disasters
- ✓ Everyday life becomes vibrationally easier for us yogis.
- ✓ Easier to give realisation
- ✓ More programmes and future Sahaja Yogis

How does it work?

- Buy coconuts with plenty of milk, without cracks or mould.
- Tip: Order at „Billa“ (for Austrians) ready for collection in 2 days.
- Clean the coconut from the fibres.
- The fibres near the 3 points is kept intact as it is auspicious.
- Paint the coconuts with Kumkum, with a cross and on the other side with Omkara, Swastika (not if someone could see you with it or at places of the 2nd World War, as it has negative connotations in our society) depending on what fits vibrationally.
- For this purpose, do not paint the 3 eyes on top of the coconut according to Indian yoginis. But a bindi on top is so cute to look at.
- Vibrate the coconuts in front of Shri Mataji's lotus feet.
- You can also offer them before painting and paint them afterwards.
- You'll notice as you lovingly paint each coconut that it has a cute face and it looks like a head.
- The attention with which you offer the coconuts is important!
- For the protection of your home, or for a special, collective purpose. The coconut senses this and adjusts to it.

How can this be intensified?

- You can also offer a small, special puja to Shri Ganesha.
- In your own words, ask Shri Ganesha from your heart to bless the coconuts for this purpose and guide you to the places.
- The coconuts then become even more powerful and you need fewer coconuts for one place.
- It is very strong if you offer 3 coconuts in a Y-shape (see photo).
- At the end ask Shri Mataji that all the coconuts offered unite with and purify the earth. (is very strong).

Where to offer coconuts?

- Actually everywhere
- Especially in places where something negative has happened: wars, family violence, battlefields, Celtic sites, labour camps, castles, near religious institutions such as monasteries, churches, cemeteries, prisons, courts, centres of false gurus, places where (world) politics is made...Take care: do not offer on private property.
- For protection and vibration increase in schools, kindergartens, playgrounds, hospitals, sports facilities, adult education facilities, government buildings...
- First look vibratory or spontaneously how many coconuts a place needs and how many yogis should go together (important protection) for very negative places.
- On trips, holidays or business trips, you can always take some coconuts with you and a place to clean them is quickly found.

How to offer coconuts?

- Search for a suitable place
- If you find a place with a violent past, it is also effective to offer the coconut at a distance.
- Take a small shovel or spade with you.
- Give a bandhan over the future hole, dig, put vibrated water in, offer coconuts with eyes up, offer vibrated water.
- In addition, you can offer flowers, vibrated rice...
- Close hole with hands only (do not step on it)
- Shri Ganesha-Mantra and Shri Adi Boomi Devi Mantra (additionally mantras, depending on what is felt)
- Ask Shri Mataji from the bottom of our hearts that this place-area be cleansed.

Dream with Shri Mataji Nirmala Devi

- This wonderful contribution comes from a yogini Parastou.
- I had a dream several years ago that I would like to share with you.
- In the dream I saw Shri Mataji in a classroom. She was standing at the blackboard teaching us.
- I can't remember the content.
- It was raining. After class I walked up and asked Shri Mataji if I could take Her home.
- When there were only two of us in the car, I dared to ask Her something, namely about secrets of the universe.
- Asked: Shri Mataji could you please tell me a secret?
- She replied, "Yes! Devotion and coconuts" Jai Shri Mataji

Testimonials

- From Vera: I experienced how we buried the coconuts and said the mantras, that this energy of the coconut suddenly went like a volcanic eruption, but under the earth in all directions. It was so incredibly fast, so very fast vibrations, or strands of energy, white strands with an unbelievable power, sensational power. Before that I was rather doubtful whether it was really so helpful to bury coconuts. After seeing this, I knew that it really can!!!! Well, have fun offering coconuts.
- Waldviertler Yogini: To all brave coconut warriors and those who want to become one. The 3rd or 4th time I noticed it - as soon as we had put the coconuts in the ground and started with the mantras, a soft, gentle wind came up. The next few times I paid attention, and sure enough, in the most hidden corner (we didn't want to be observed), in the most windless undergrowth - Shri Vaju was usually there and accompanied the ceremony. It was incredibly blissful every time, such a unifying feeling. Not to forget - it is so nice to spend a few hours together, meditating, sharing, enjoying being together and nature.

Field reports

- Marion: Wonderful sky signs! These rainbows were created at intervals of 2 hours, when on the same day on 05.02.2022 in Austria, Germany and Switzerland a total of over 50 coconuts were offered to Mother Earth in relation to the "false" Buddhism and boss .
- Kathrin: We were back at the Innspitz where we buried coconuts a few days ago and I had quite a headache that day because I think I had been caught by someone in the course. I wasn't feeling so great and we were standing there at the Innspitz and suddenly I thought something was working and I felt really good and I noticed how all the negativity and the headache was being sucked out of me. I felt it really strongly and saw that I was standing about 1 m from the coconut and it was incredibly pleasant, I didn't want to leave. When we were a bit away, it stopped again and that's why I noticed that the coconut really attracts negativity in an incredibly powerful way. That was a great experience. It is such a special blessing that we are allowed to do this work, we always feel with great gratitude. It is such a beautiful collective experience to offer the coconuts together to Mother Earth, which connects us more and more, especially in these intense times of the pandemic, when almost nothing else is possible collectively.

Testimonials

: New Elements Offered on the Side in Nuremberg!
How true thanks to our brothers and sisters in Germany

- Walter and Sinisa: We were in Vienna in the 21st district all day on the road with coconuts and at the end there was 1 coconut left and we didn't know where to offer it. And that's when we both asked: Please Shri Mataji take us to where we should offer this coconut. We both went to the Sahasrara and then Mother took us there. To a very small green area in the middle of small residential houses, very idyllic, very quiet. When we came to the green area we noticed a cross with Shri Jesus in gold with a skull and a snake underneath. I stayed by the cross and Walter buried the coconut by a nearby tree. When Walter left, I suddenly felt the negativity of that place very strongly. The coconut was a kind of protection as long as Walter was here. When he left, I felt a mountain of bhoots and we knew there was something wrong with this place. When we went outside, we saw a sign that in the 1970s the municipality of Vienna had rededicated this green space from a former cemetery to a recreational green space. When we left, everything felt much brighter, lighter and more joyful. We were so full of joy and gratitude that Shri Mataji had led us to this place.

Testimonials-Guide

Walter, Sinisa and Arno: Walter googled and that's why we went to a big football ground in the 21st district and knew that this place had a very violent past from the 2nd World War. 500 m before we reached the place we already felt such violent attacks in the Void. We had armed ourselves beforehand with a joint meditation, puja water sprinkled and lemon pocketed. There are 4 or 5 football fields there, where many children also train with a stadium. Somehow it felt like everything was shrouded in a light mist. We also felt such a strong physical pressure that we really just wanted to leave. After we had offered 2 coconuts, the sunlight came through and joy was felt again. We offered 4 coconuts there and asked Shri Mataji to forgive everyone, all the atrocities and that the people who have experienced suffering here can forgive each other and leave. We felt such strong vibrations then. We left there with so much joy and gratitude knowing that the children who play sports here are protected and they can grow up well now.

Walter Sinisa and Willi: We went there again another day to the 21st district because there was an asylum centre on the other side. We learned that fighters for IS in Syria were allegedly recruited and trained here. Therefore, this place had almost more violent vibrations than the football field. We were able to offer 1 coconut there too and it was also there that we immediately felt a change in the atmosphere. We have so many shared, beautiful experiences that we are so grateful every time we were allowed to be an instrument. We have felt so often this wonderful guidance from our Holy Mother that coconuts are so important. Nature gave us many beautiful signs of love and gratitude for this important work, which can not be done by anyone else, only by Sahaja Yogis. Only we have received the divine knowledge and technique from Shri Mataji. And perform this service of love for ourselves and the society. Thank you, thank you, thank you Jai Shri Mataji.

Field report Switzerland

They are so happy

- The Swiss yogis have done such a wonderful job, bringing 41 coconuts to Mother Earth in Davos alone in the last few months. Their 50th meeting of the World Economic Forum lobbying organisation took place.
- We - 2 yoginis from Sautens/Tyrol and Gmunden/Upper Austria - deposited 3 tapes with Shri Mataji's speeches of Shri Ganesha 2002, Shri Kubera 2002 and Shri Vishnu 1994 in a safe deposit box at a bank in St. Gallen on 01.10.2019, representing all Swiss banks. This was a collective project of brothers and sisters from Tyrol, Upper Austria and Vienna.
- The request was that Shri Mataji bring justice to the money matters. Switzerland is considered one of the most non-transparent financial locations in the world.
- Full of joy, we were able to spray puja water in the bank and chant the 3 great mantras as we put the tapes in the locker. Everything was in divine flow.
- **Report:** RTL 19.01.2022 From Davos, the letter of 100 millionaires goes out into the world. With the request to tax the wealth of the super rich of the world. It was even calculated how much aid could be set up with the tax money of 2 - 5 %. A gigantic sum of 2.5 trillion US dollars with which, for example, 2.3 billion people could be freed from poverty, etc. Perhaps this is a beginning in thinking and many dharmic deeds can follow.
- **Report:** Der Standard on 20.02.2022 Major Swiss bank – Credit Suisse - a safe haven for criminals and corrupt people. A research network of 160 journalists from 48 media has uncovered how dictators, secret chiefs and criminals are said to have stashed their assets in one of the most important Swiss banks. It concerns 18,000 bank accounts containing more than 100 billion dollars.
- No coincidence! We yogis can collectively make so much difference with our pure desire and sahaja actions. We know that this will definitely change something. What, how and when is up to the perfect plan of our holy Mother.

Intensify our Sahaj light

- Christine: Sometime in the nineties i was at the inauguration of teh new Ashram in Noida, when Shri Mataji went in meditation and said: "You have no idea how beautiful the future will be, you have no idea. But before, be prepared. You will get a lot of shocks. But never, never doubt and lose don't lose the joy of the connection to the Divine. Meditate, meditate, mediate."

- Arnaldo, our elder brother, who recently passed away: Shri Mataji, our Holy Mother, made him lot of years ago in Shudy Camps as her Raki-Brother. He wrote a diary about everything what Mother said. Arnaldo often was in the Castle and Mutter let him guard the entrance. Mother talked about the described apocalypse of John. Other said taht it will start in 2020 and will last until 2025. It will be a time of great vibrational development. However, also a lot of people inside and outside of Sahaja Yoga would get too much involved (in the fight) with negativity and fall. The „earth“ will get completeley mad. I guess that the people will get mad ith fear and panic due to extrem wordly incidents.

- Sinisa: Shri Mataji told to an Australian Yogi that everyone sould spray vibrated water in his garden. After that we should pray to zu Shri Mataji that the sun will appear. The water evaporate and rises to the heaven and builds clouds. The rain brings the vibrated water back to the earth. It would be very helping if in view of the current situation that all alle Sahaja Yogis, especially in the neighbouring countries of Ukraine and of course everywhere. Please share the information.

- Nicol: Yesterday I saw a movie about nuclear tests I Gestern Abend habe ich einen Film über Atomtests gesehen and I became aare about the invisible danger. The war in Ukraine has the highest priority. We ask Shri Mataji to inspire us what we could do and bury coconuts all over the world to absorb also this negativity. - Helga: Lets make Aarti for peace every day! Plaese Mother enlighten all Sahaja Yogis and families, all politicians and policymakers für peace in Ukraine and in the whole world.

- This presentation was created by 2 laymen, without any special expertise, but with a lot of heart.
- With the wish that coconuts are offered for cleaning all over the world to show how easy it is.
- There are so many miraculous experiences and adventures, but very few have been documented.
- The photos are almost all taken while working with coconuts, with wonderful vibrations.
